This document is for illustrative purposes and may change without notice. Purchaser should verify that a representative specification of the system to be installed has been received prior to the establishment of a project or contract.

AxisTM incorporates life like individual blades of grass, tufted into the strongest and most dimensionally stable backing system available with a polyurethane pre-coat for the ultimate in tuft-bind.

AxisTM is filled with a pea gravel (2-3 lbs) and cuboidal rubber infill (2.5-3.5 lbs) - RealfillTM.

The monofilament fibers curl down to cover and trap the rubber granules preventing the system from expelling the infill upon impact.

AxisTM is a fully UV stabilized system ideal for outdoor use.
