For Immediate Release

Hellas Construction is #13 out of 50 Fastest Growing Companies in the Greater Austin Area

Austin, Texas October 22, 2010 – Thursday evening Hellas Construction Inc. landed the 13th spot at the awards ceremony when the fifty fastest growing companies were recognized at the Westin Hotel in Austin. Hellas was nominated as one of the fifty fastest growing companies, in the fastest growing region of the fastest growing state in America.

Hellas' owners explain the company achieves steady and continuous growth by installing quality products; it is really a matter of planning and constructing every project right. But more importantly, they attribute the success to the people that work for Hellas. "Every single person in our organization ensures that we produce quality – it is only with quality people that you can achieve this kind of success" says Reed J. Seaton, President and CEO of Hellas.

Hellas relies on customer satisfaction and the performance of their products to spread the word about the company and its services. "I could not be happier," says Seaton "it is a testament to our customers, and it's their satisfaction that makes Hellas so successful. We thank them for this prestigious award."
